SUMMARY

- Energetic and dedicated M.Sc. graduate in Computer Science from MES College Marampally, Mahatma Gandhi University. Passionate about leveraging technical and problem-solving skills to develop innovative technology solutions. Proficient in building responsive web interfaces using HTML and CSS, with programming skills in Python.Interested in Python Full Stack Development and continuously improving technical skills to build efficient and user-friendly applications.

EDUCATION

- **MES COLLEGE MARAMPALLY, ALUVA, KERALA** **2026**
  M.Sc.Computer Science,MGU *SGPA: 3.69*
- **COLLEGE OF APPLIED SCIENCE, VADAKKENCHERRY, KERALA** **2024**
  B.Sc.Computer Science,Calicut University *CGPA: 7.41*

PROJECTS

- **FarmGuard+ – Intelligent Wildlife Monitoring System:**
  Developed a machine learning-based solution to detect wildlife intrusions in agricultural areas. Worked with image and audio-based animal detection, sensor integration and real-time alert notifications to support crop protection and farmer safety.
  Technology Used: Python, Machine Learning, Image Processing, Audio Processing, Sensor Integration.
- **Low-Light Image Enhancement Using Hybrid Deep Learning Models (Research Project):**
  Evaluated five deep learning architectures and developed a Hybrid CNN model using combined LOL and SICE datasets. Compared model performance using PSNR and loss metrics, achieving a reported peak PSNR of 41.40 dB.
  Technology Used: Python, Deep Learning, CNN, Transformers, PyTorch, LOL Dataset, SICE Dataset.

TECHNICAL SKILLS

- **Python:** Proficient in Python programming with experience in implementing logical problem-solving techniques, developing desktop applications, and working with basic data handling concepts.
- **SQL:** Proficient in SQL for database management, writing queries, joins, subqueries, filtering, aggregation, and data manipulation.
- **HTML & CSS:** Experience in creating structured and semantic web pages using modern HTML elements and responsive page layouts. Skilled in designing user interfaces using styling, layouts, positioning, and basic animations.

INTERNSHIP

- **Python Full Stack Development:** **2026 - Present**
  Camerin - Indian Institute of Upskill | Ernakulam
  Currently undergoing training in Python Full Stack Development. Completed foundational training in Python programming, MySQL database management, Python-MySQL database connectivity, and version control using Git and GitHub. Actively learning frontend and backend development technologies as part of the internship curriculum.
- **Data Science with AI :** **2025**
  KELTRON – REC Kalamassery | Ernakulam
  Gained practical exposure to Python programming, data handling, Artificial Intelligence, and Machine Learning concepts, including classification and regression techniques.

ADDITIONAL SKILLS & INTERESTS

- **Soft Skills:** Adaptability, Teamwork, Active Listening, Self-motivation, Communication Skills, Open-mindedness.
- **Interests:** Research, Volunteering, Travelling.
- **Languages Known:** Malayalam (Native), English.
